

24 FLYERS SEEK PULITZER TROPHY IN OCTOBER RACE

Aviation Experts Confident
New Speed Record Will
Be Established.

Twenty-four entries have been made for the Pulitzer Trophy Race Oct. 14, the Detroit Aviation Society announced today. Experts who have watched experimental flights of many of the planes entered are confident a new world's speed record will be established.

The Pulitzer Trophy Race is being advertised as the feature event of the Second National Aero Congress and National Airplane Races. The date has been proclaimed a municipal holiday at Detroit.

A mammoth grand stand is building at the starting and finishing point at Selfridge Field, Mount Clemens, Mich. The course is triangular, and with the exception of Selfridge Field all of its forty miles is over the waters of Lake St. Clair. The flight distance is four laps, or 160 miles.

"Interest in aviation has never been so great as at the present time," an official of the Detroit club said yesterday. "We expect 100,000 visitors in the city."

"The national airplane races this fall will be as important as the national motor shows were in early days because they will bring out the quality and defects in the various flying machines. That is why various foreign governments are watching the events here so closely."

One of the blue ribbon events will be the Curtiss Marine Flying Trophy race Oct. 7. More than a dozen seaplanes and flying boats have been entered so far for that classic of marine aviation.

Delegates from seventy-five cities throughout the United States will attend the Aero Congress. They will seek to organize a permanent national aeronautic association, which will represent flying in the halls of the municipal, state and national legislatures.

The delegates will draft a programme for the creation of a code of Federal air laws and the establishment by act of Congress of a bureau of civil aeronautics in the Department of Commerce.

THREE NEGRO YOUTHS "BORROW" AUTOMOBILES

Charged With Grand Larceny After Cops Get Suspicious.

Three Negro youths borrowed an automobile at 1 o'clock this morning, according to the police, and they will be arraigned in Jefferson Market Court today on charges of grand larceny as a result. They are Roosevelt Butler, twenty, No. 345 Cumberland Street; Harold Girard, twenty-two, No. 1562 Fulton Street, and Morrey F. Davis, nineteen, No. 1456 Fuller Street, all of Brooklyn.

Policeman Kehoe of the West 36th Street Station, arrested the trio at 14th Street and Fifth Avenue on suspicion, and the three were unable to produce any cards to indicate ownership of the machine. It proved to belong to 1211 Oakland of No. 2078-A Pacific Street, Brooklyn, and had been "borrowed" from a garage at Ralph and Atlantic Avenues, Brooklyn.

Kiddie Whooping Cough Victims In Island Camp Well and Happy

CONVALESCENT CHILDREN

Every little child who is a whooping cough patient or convalescent and cared for on Riverside Island under the auspices of The Evening World's Kiddie Klub Country Fund is today the proud possessor of a brand new pair of sandals. These were presented to the youngsters yesterday as a good way of beginning the week. Another beginning was the exhibition last night of the kid film "School Days," effected through the courtesy

of Warner Brothers, whose men set up the screen and threw the picture on it in real cinema theatre style.

Today is the day of the kiddie's fifteenth excursion up the Sound on the steamboat Riverside. These excursions, in which all patients able to do so take part, occur twice each week and are looked forward to with the greatest eagerness.

Health Commissioner Copeland has now returned from his trip to Europe and the kiddies may be sure that his interest in them has never waned, even though he did go a long way from Riverside Island. The first question he asked when his steamer arrived at her pier was "How are the little whooping cough children?"

Dr. Thomas F. Joyce, head physician on the island, had the best of reports for Dr. Copeland. One thing he told the Commissioner was that some of the mothers of the kiddies visited them last Sunday to take their little ones home, and they were almost unable to recognize their own progeny. Why? Because they had grown so fat on the island, with all the good care and the proper food they had been receiving.

The Grade A milk now being served to the kiddies in the island camp comes from the Clover Farms Dairy. The latter began serving it yesterday. Hitherto it has been provided by the Borden Company.

LAST WEEK OF THE
AUGUST SALE OF

Flint's Fine Furniture

LIVING ROOM FURNITURE
at exactly 1/2 price

THE FIRST DAY of September will be the last day of Flint & Horner's August sale. Until then, discounts up to 50% still obtain on all of Flint's Fine Furniture.

On over a hundred pieces of living room furniture, the prices have been sliced in half with mathematical exactitude. There is only one of each of the values listed below, but as many more pieces are offered at half price, you have a wide range of choice.

Davenport and easy chair, blue mohair cover—formerly \$664, now \$332.

Easy chair, taupe cover—formerly \$180, now \$90.

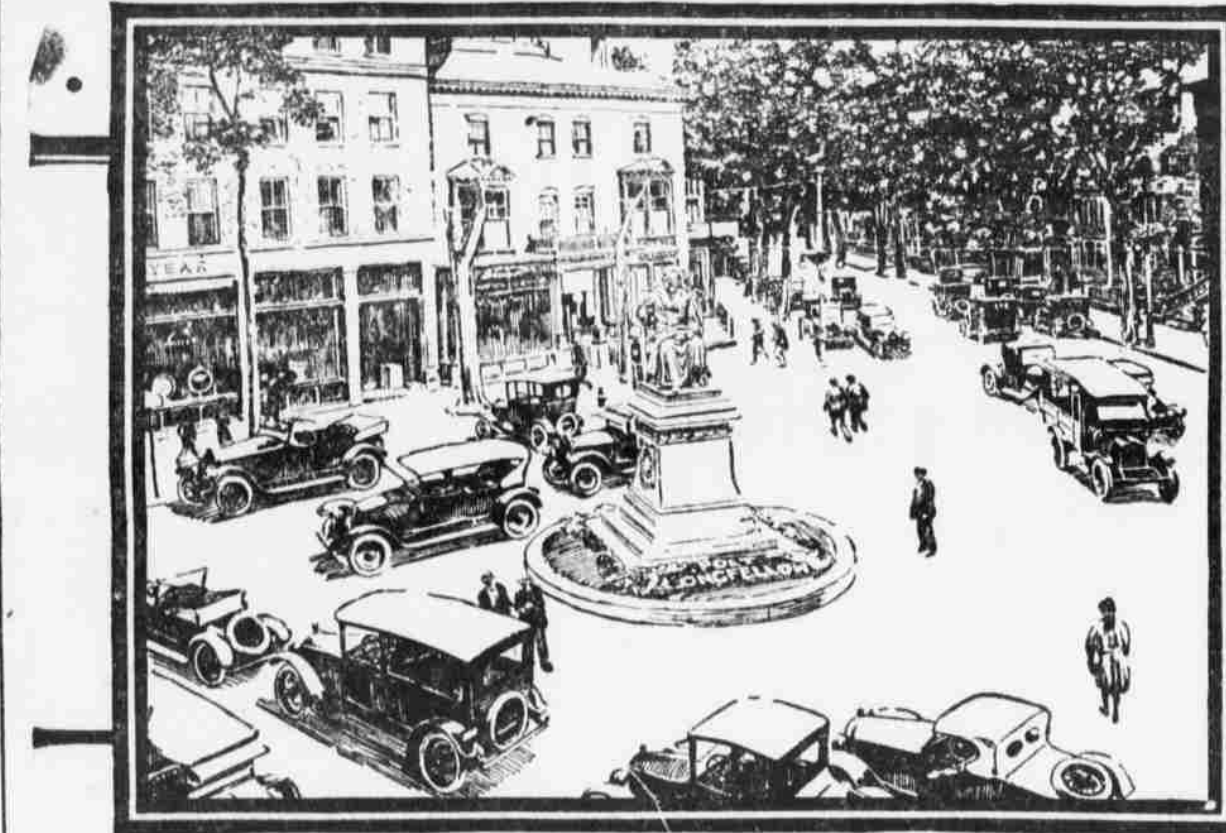

Davenport and easy chair, tapestry cover—formerly \$528, now \$264.

Wing chair, blue velvet cover—formerly \$120, now \$60.

FLINT & HORNER CO., INC.

20-26 WEST 36TH STREET

A few yards from 7th Avenue

First— In Portland, Maine

At the intersection of State, Pine and Congress Streets, 940 drivers of all types of motor vehicles were asked a short time ago which gasoline they preferred. The investigator's report, duly sworn to, showed that Socony, by a score of 3 to 1 over thesecond choice, is unquestionably the overwhelming favorite among gasoline users in Portland, which confirms results obtained by similar investigations in the principal cities of New York State and New England.

What Do You Want in a Gasoline—Most?

If you were making your own gasoline, wouldn't you strive to make it satisfactory from every standpoint, rather than a little out of the ordinary in one respect or perhaps two? You'd probably try to get a gasoline that was good, dependable in starting, pick-up, power and mileage—rather than one which had wonderful pulling power on the hills, for instance, but was low on mileage and hard to start.

The all-round dependability which most motorists demand is the basis of Socony's decided popularity today. During the many years that Socony has always given consistent satisfaction, many "phenomenal" motor fuels have from time to time been offered the motoring public. But the fact that Socony is still the popular gasoline is striking evidence that gasoline users prefer all-round excellence to one-sided superiority.

Socony's unvarying dependability is the result of the most modern refining methods and careful testing. It always has the correct range of boiling points and in the right proportion to insure instant starting, satisfactory pick-up, abundant power and high mileage. (See diagram and Note.)

After all, isn't the unusual popularity of Socony a pretty good indication that it has what you want most in gasoline—uniform dependability?

Facial Blemishes

Bleak, mucky, roughened or
bleached complexion are usually
due to constipation.

When you are constipated, not
enough of Nature's lubricating
liquid is produced in the bowel
to keep the food waste soft
and moving. Doctors prescribe
Nujol because it acts like this
natural lubricant and thus re-
places it.

Nujol is a lubri-
cant—not a medicine or lax-
ative—so you can
not grip. Try
it today.

Nujol

A LUBRICANT—NOT A LAXATIVE

Cuticura Does So Much For Hair And Skin

For promoting and maintaining
beauty of skin and hair Cuticura
Soap and Ointment are unexcelled.
Cuticura Talcum is an ideal powder,
refreshing and cooling to the most
delicate skins.

Sample Each Free by Mail. Address: "Cuticura Lab-
oratories," Dept. 97, Malden, Mass. Send every-
thing, Soap, Ointment and Talcum, for
free. Cuticura Soap shaves without ras-
or.
